MAKING RECYCLING EASY

With 28 waste management solutions, hoteliers can choose how they wish to recycle. The unique Thornton recycle bin inserts can be used independently or as a set, with or without a bag liner. They feature printed international icons on top to illustrate to guests what items can be placed inside.

Bedroom Bin Recycling

Designed to be used with our single or double layer bins, the new recycling bin inserts have been cleverly designed to be used independently or as a pair. The unique handle displays internationally recognised icons for 'general waste' and 'recycling', making it easy to understand in any guest room around the world. The handle has also been designed with 2 slots that allow a bin bag to be maneuvered around the handle so the icon isn't covered.
